**Introduction:** - In today's Competitive Market Scenario all organizations are focusing their efforts on Inventory Reduction and Lean Management practices to achieve Cost Reduction & better Financial Management. It is always essential to control stocks at various locations in an organization at optimum level. Proper Inventory Control is possible only with the support of efficient Stores Management. In fact, Stores Operations are spread from Receiving Stores, Raw Materials & Bought out Components Stores, Semi-finished Component Stores, Spares Part Stores, General Stores, Tools Stores, Tool Crib, Finished Product Stores, within the organization where as out side the organization it has connectivity from Vendor Managed Inventory to Distribution Centers near Customers through logistics Providers.

This One Day Executive Development Programme is designed to cater needs of Industry in today's economic situation for Stores & Inventory Management and supporting their initiatives of making organization more competitive by way of releasing Capital blocked in Inventories, achieving Cost Reduction, reducing Response time to Customers & improving Customer Satisfaction.

**Lesser the Inventory Better for the Health of Company!**

**Latest Benchmarks in Inventory & Stores Management will be shared!**

**Participant Profile :-** This Executive Development Programme For all Executives and Managers from all functions of Stores, Materials, Purchase, and Supply Chain Management across the organization, Logistics Partners, Internal Audit and Finance Department.
